

UCCXpress On-Line Search Enhancement Release Notes October 26, 2008

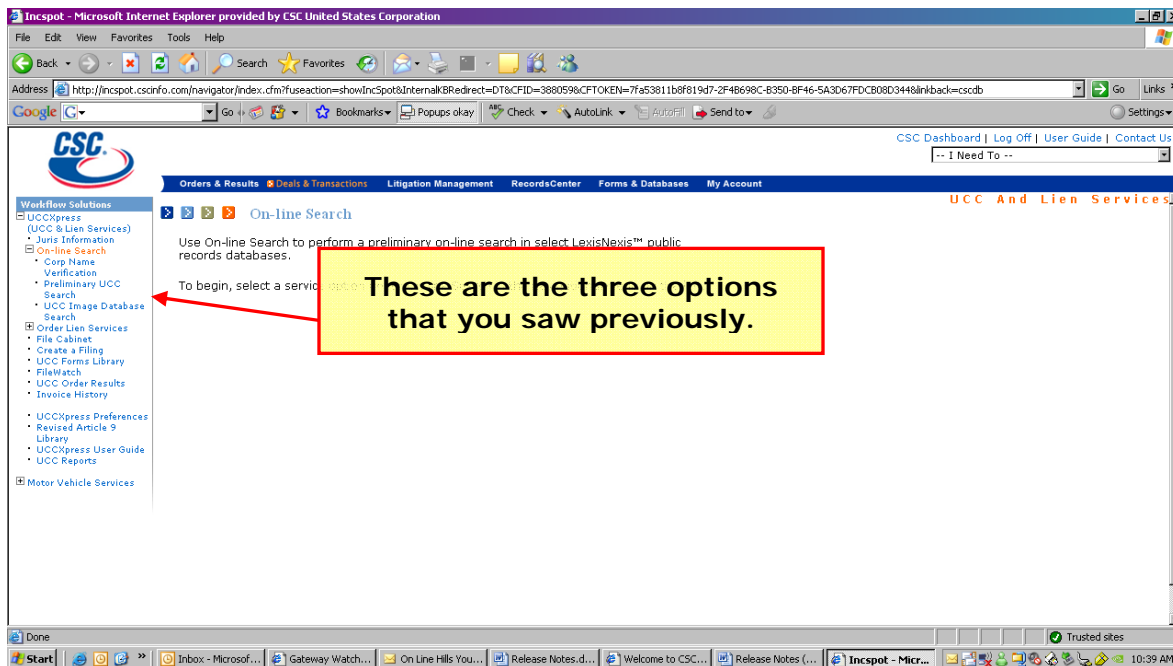

CSC is pleased to announce the release of new and improved On-Line Search functionality in UCCXpress. We have replaced our LexisNexis UCC Search and Corporate Search capabilities with our own On-Line Search capabilities. When you click on the On-line Search Link you'll see the Search Center and Document Center functionality right at your fingertips.

Our Search Center will offer you our 360° search logic which will help your due diligence process because we have the most current on line UCC and Corporate data. When you couple that with the largest UCC image library in the industry you have a great tool at your fingertips.

Our Document Center will provide you with the ability to store all of your search results and access them indefinitely. You will have the ability to search for prior searches, download excel charts or e-mail results right from your desktop so you can be more productive!

Conducting Searches:

Customers will click on the same link in UCCXpress that they previously clicked on to access the new tools. The difference is that they will not see multiple options when they click On-line Search.

The On-line search link does not expand to show the specific search options but rather brings you into the Search Center where you can conduct searches.

Previously UCCXpress users accessed LexisNexis for Preliminary UCC Searches and Corporate Name Verification searches (including Delaware).

Order	Debtors	Secured Parties	Status	Date	Number	Type
<input type="checkbox"/>	CRABBY TOM'S OLD TIME OYSTER BAR	ECOLAB		9/16/1996	960000194402	INITIAL FILING
<input type="checkbox"/>	CRABBY TOMS OLF TIME OYSTER BAR	ECOLAB		6/11/2001	200100127115	CONTINUATION
<input type="checkbox"/>	CRABBY TOMS OYSTER BAR	ECOLAB		10/23/2000	200000240428	INITIAL FILING
<input type="checkbox"/>	CRABBY TOMS OYSTER BAR	ECOLAB		10/23/2000	200000240429	INITIAL FILING

Going forward clients will access the new interface below for Online UCC Searches and Corporate Name Verifications (including Delaware Corporate Searches).

Previously UCCXpress users retrieved existing searches using the Existing Project link, which displayed searches performed in the past seven days.

BEFORE

Going forward, clients will retrieve existing searches using the Document Center functionality with its advanced query options.

AFTER

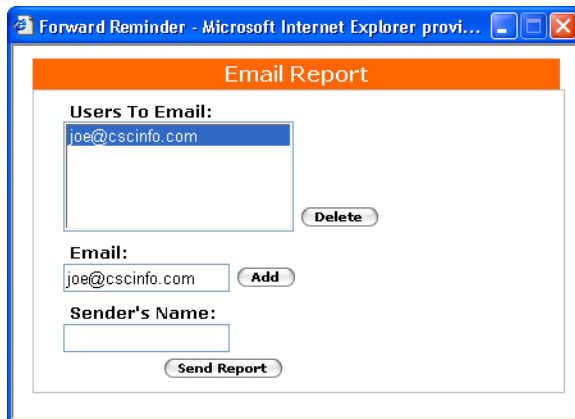

Existing searches matching your criteria are displayed on the Query Results page.

The screenshot shows the 'Document Center' interface. At the top, there is a navigation bar with 'Orders & Results', 'Deals & Transactions', 'Litigation Management', 'RecordsCenter', 'Forms & Databases', and 'My Account'. Below this, the 'Document Center' tab is active. A 'Query Information' box contains the following details: Start Date: 10/17/2008, End Date: 10/24/2008, Filter: Searches, and Filter: All Orders. To the right of this box are buttons for 'Export', 'E-Mail', 'Get Report', 'Select All', and 'Clear All'. Below the query information is a table with 11 search results. The table has columns for 'Date', 'Subject', 'Project ID', 'Master Project', 'Jurisdiction', and 'Service'. Each row includes a checkbox and a 'Results' button.
